Commenting on the Group's first half performance, Mr. Richard Tay, Group Managing Director of YHI, said, "YHI has performed well in the first half of FY2008 despite the challenges of higher operating costs, increasing fuel and raw material costs, the weakening US dollar and rising competition. I'm happy that YHI is able to report improved top and bottom lines in the midst of these global challenges.

To stay competitive, the Group will continue to put in place various measures to improve productivity and operational efficiency. To date, our efforts in improving internal efficiency has begun to show results. Besides, we have embarked on aggressive branding campaigns to enhance our pricing strategy and to strengthen global brand equity for our proprietary brand "Advanti Racing" through successful sponsoring of alloy wheels to Scuderia Toro Rosso F1 Team. Since the sponsorship announcement in February this year, we have been able to command a higher selling price for our products. The sponsorship has helped to strengthen the Group's branding and enhance recognition of the high quality of our products in the world market".
